

Capture and record your experts where they are.

REMOTE RECEIVE

The ReadyCam Remote Receive Station enables you to record HD video and audio remotely from your ReadyCam studios located around the world. You can intake and edit video from various ReadyCam locations and distribute it whenever needed from the convenience of your office.

HOW READYCAM REMOTE RECEIVE WORKS

BENEFITS OF REMOTE RECEIVE

- Save time, money and resources.
- No additional on-site technicians needed.
- Eliminate unnecessary travel.
- Create an internal TV network that you control.
- Record all your experts on-demand.
- Instant access to HD video from any of your studios.

“ Our remote receive station in Chicago allows us to tap into our thought leaders located in New Jersey and Minnesota without traveling. We can efficiently record and edit video in Chicago and then distribute it. ”
